## OBJECTIVE

---

Full Stack Developer with expertise in Java, Spring Boot, and Angular, adept in crafting scalable solutions. Seeking to leverage experience and bridge gaps in modern tech stacks and cloud deployments.

## SKILLS

---

Technical Skills	Java, Spring Boot, JavaScript, Angular, Node.js, TypeScript GraphQL, SQL, Postgres, AWS
Soft Skills	Leadership, Communication, Problem Solving, Time Management
Domain	Logistics , Data Warehousing
Operating Systems	Windows, Linux

## EXPERIENCE

---

Software Developer	October 2022 - Present
Velocis System Private Ltd	Noida

- Developed multiple APIs using Spring Boot and Spring MVC, contributing to enhance the project 40% more scalable and functional.
- Applied JavaScript to enhance form functionality and improve user experience
- Developed generic APIs that did data manipulation by inserting, updating and soft deleting data.
- Contributed to the design and creation of multiple microservices instances, enhancing the project's modularity and maintainability.
- Implemented the Captcha Service, Authorization Service, and Mail Service functionalities, enhancing security measures and user authentication processes within the ITMS project.

## PROJECTS

---

**ITMS (Integrated Terminal Management System).** Web App built to manage the logistics and data warehousing domain work of Domestic and Exim Terminals for CONCOR using Java, Spring Micro-Services, Oracle DB, Javascript, TypeScript, JQuery and Thymeleaf. Optimised data and forms to better the user experience as well keeping only the required data exposed to the user according to their roles and authorisation. ([ITMS : Try it here](#))

**Fudoo.** Build a online food ordering system using Java and Spring micro-services. Used Java, Postgres, React and JavaScript to make this Web App work smoother and fully functional.

**Portfolio.** Build a Portfolio Web App using Spring micro-service architecture; to showcase and improve my skills of Java, React, Javascript, JQuery, CSS and MySQL.

## EDUCATION

---

Bachelor of Computer Science, MGCGV University	2018 - 2021
--	-------------

## CERTIFICATIONS

---

- Full Stack Java Certification.
- Android with Kotlin Certification.

## ACHIEVEMENTS

---

- Participated and Won Several Hackathons , Code battle competitions and Tech Showcases at college.
- Led and Organised Several Tech events.
